

NOTE

▲ CERAMIC capacitor. All ceramic capacitors are above 25V rating.

■ MYLAR capacitor. All mylar capacitors are above 50V rating.

NP: NON POLAR capacitor.

T: TANTALUM capacitor.

And all capacitors are ELECTROLYTIC capacitors, unless otherwise marked. Unless otherwise indicated: Resistance in Ω , K = K Ω , M = M Ω . Resistors, 1/8W, $\pm 5\%$ rating. Capacitance in pF μ = μ F.
