

Notes • All resistors value are in ohms. (K=1000Ω, M=10<sup>6</sup>Ω)  
 • All capacitors value are micro farads. (P=10<sup>-6</sup>μF)  
 • Tolerance of all resistors is K=±10%  
 • Tolerance ; K=±10% Tolerance of all capacitors (except the electrolytic capacitors) is M=±20% unless otherwise indicated.
