 D₅; IS 2076

- Notes
 • All resistors value are in ohms. (K=1000Ω, M=10⁶Ω)
 • All capacitors value are in micro farads. (P=10⁻⁶μF)
 • Tolerance of all resistors is K = ± 10%.
 • Tolerance; K = ± 10%

(Bottom view)

- Tolerance of all capacitors (except the electrolytic capacitors) is M = ± 20% unless otherwise indicated.
 • S₁: Charging EFFECT or NORMAL
